### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 1-7 rejected under 35 U.S.C. 103(a) as being unpatentable over Vukos et al. USPN 5290262 in view of Van Tilburg USPN 4589876.

2. Vukos discloses the present invention substantially as claimed – see Figures 3, 6, and 7 and col. 5, lines 16-48; col. 7, lines 33-46). Vukos does not disclose wings. Van Tilburg discloses wings for the benefit of protecting the user during the menstrual period by preventing body and clothing soiling (Abstract). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the article of Vukos to have wings for the benefits disclosed in Van Tilburg.

Vukos does not disclose a release sheet. Van Tilburg discloses an adhesive base surface and a release sheet (Van Tilburg Figure 10, elements 20 and 22). It would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the invention of Vukos with a release paper and adhesive. Doing so would provide a means for attachment to an undergarment and the release sheet additionally prevents the adhesive from becoming exposed prematurely.
